- ▶ 24/7 U.S. Security Operations team monitoring, hunting and stopping threats for you
- ▶ **\$1,000,000** fully integrated Financial Liability Protection
- ▶ All-inclusive service with no hidden fees and no contracts

A PROVEN APPROACH THAT STOPS BREACHES WHILE DELIVERING RECOVERY ASSURANCE

TECHNOLOGY & SERVICE COMBINED

eSure.AI is the industry's first artificial intelligence cybersecurity platform and 24/7 U.S. live dedicated Security Operations Center with fully integrated financial liability protection. This is the same sophisticated enterprise-class security corporations use – **at a fraction of the price.** eSure.AI uses A.I. driven proactive threat hunting and detection

plus security analyst monitoring around the clock to effectively protect your entire organization while you sleep.

SERVICE GUARANTEES IN MINUTES

If reputational damage and paying ransoms wasn't enough, you may be susceptible to lawsuits from partners, dropped contracts, and massive regulatory or state fines.

Our fully integrated financial liability protection is added in minutes and claims are settled faster. No more complicated research, applications or insurance brokers required.

Get up to **\$1,000,000** in service guarantees with our all-in-one solution:

- ▶ \$200,000 of ransomware and business email compromise protection
- ▶ \$200,000 of compliance failure protection
- ▶ \$100,000 of business income loss protection
- ▶ \$500,000 of cyber legal liability protection.

YOUR DEDICATED U.S. CYBER SECURITY TEAM

Why tax your limited resources? eSure.AI is your company's fully dedicated cyber security team. We don't send you alerts – we act on them and resolve, giving you greater peace of mind. Expert U.S. security analysts are monitoring and remediating cyber threats to your business 24/7, working for you so you can focus on what's important. Get on-demand service without any additional fees.
