

Instant, Immutable Streaming Desktops

Fortified Desk makes it easy to stream all of your applications through a browser. Reduce costs while enabling infinite scaling, increased productivity and security.

What Fortified Desk

Enables

Enhanced Security

- Zero-Trust, SASE Remote Access
- Uncorruptable Immutable Applications
- Ephemeral Applications
- True Browser Isolation from Systems

Increased Productivity

- Instant, Scalable, Virtualized Desktops
- Access From Any Device or Network
- Faster Applications

Cost Savings

- Lengthening Useable Hardware Life
- Virtual Machine Autoscaling
- Remote Developer Desktops
- Windows Licensing Cost Reduction

Inexpensive Hardware

- Locked-down, Single-Use Hardware
- Bring Your Own Device (BYOD)
- Biometrics/Card Access to Applications
- Air Gapped Access to IT & OT/ICS

What Fortified Desk

Eliminates

Software Costs:

- Virtualization (i.e. Citrix, Horizon, etc.)
- Endpoint Protection (i.e. CrowdStrike, eSentire, etc.)
- VPN costs
- Endpoint Management & Backups

Hardware Costs:

- Windows Desktops and Laptops
- Endpoint Upgrades
- Buying Hardware (BYOD)
- Virtualization Server Infrastructure

Administration Costs:

- Administration from all of the software/hardware above
- Manual application updating

Data Breaches & Fines

- Corrupted Applications
- Hackers from "living" in the system
- Lateral movement across systems
- Data Loss—No data on user devices.
